SKILLS

- **Languages:** C, Java, Python, JavaScript, C++ (Basics)
- **Core CS:** Data Structures & Algorithms (Java)
- **Frameworks:** HTML and CSS
- **Tools/Platforms:** MySQL, Git and Github, Canva, Figma, VS Code, LeetCode, HackerRank
- **Soft Skills:** Problem-Solving, Team Collaboration, Project Management, Adaptability, Communication, Time Management, Presentation Skills

INTERNSHIP

None yet – actively developing skills and participating in technical projects & competitions to build industry experience.

EXPERIENCE

• Member (Student Academic Advisory Committee)

Lovely Professional University

Duration: Mar, 2026 – Present

Represent students in discussions related to academic policies and improvements curriculum.
Collaborate with faculty and administration to enhance student learning experience.
Provide structured feedback on academic initiatives.

• LPU Student Ambassador (Times Foundation)

Government Schools of Uttar Pradesh

Duration: July, 2026 – July, 2026

Conducted environmental and critical-thinking sessions; promoted TCTC quiz participation.
Used communication, presentation, student engagement, data management, and documentation skills.
Gained experience in community engagement, teamwork, and field-based campaign execution.

• Coordinator (Play 2 Unite Organization)

Lovely Professional University

Duration: Aug, 2025 – Feb, 2026

Maintained the Data Record of the organization.

Worked with peers to plan and deliver a diverse range of student-focused events, including workshops, hackathons, cultural nights, sports tournaments, e-sports competitions, and movie screenings.

Collaborated with team members to understand student interests and design events that enrich campus life.

PROJECTS

• Forest Surveillance and Fire Prediction & Detection System (IoT + Web Dashboard)

Developed a real-time forest surveillance system using ESP32 and sensors to detect temperature, humidity, smoke, gas and flame levels. Built a dashboard to visualize live data using gauges and charts and stored readings using MySQL.

Tech: ESP32, Sensors, LoRa, HTML, CSS, JavaScript, MySQL

• Movie Recommendation System

Built a movie suggestion program in Python that reads movie information from a CSV file and recommends movies based on user-selected filters using functions and file handling.

Tech: Python (Functions, CSV File Handling, Conditional Logic)

CERTIFICATES

- Infosys Springboard –Python Fundamentals, Introduction to Artificial Intelligence, Data Science, Big Data, C Programming
- Tutorialspoint –From Syntax to System: Elevate with Python
- OpenLearn –Collective Leadership

ACHIEVEMENTS

• Runner-up in HackManthon Hackathon:

Secured second position among competing university teams for developing an innovative tech solution under time-bound challenge.

• Nominated for SIH Grand Finale (Smart India Hackathon):

Recognized for technical problem-solving and teamwork and shortlisted to represent university at National Level.

• Winner of University Inter – School Basketball Championship:

Demonstrated leadership, strategy, and collaboration as part of SCSE Basketball Team.

EDUCATION

• Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; CGPA: 9.49

Punjab, India
Since August, 2025
